
PROPERTY NEEDED FOR TRAINING PASTORS

Faculty and student body of the Chile Baptist College March, 2016

The Multiplication Process in Action

The key to reaching a country for Christ is to train the nationals to reach their own people. That core belief led us to launch the Chile Baptist College in 2009 with 3 students. In the subsequent years, God continued to call men and women to His service. Today nearly 30 students are preparing for local church ministries to reach Chile and the world with the gospel in our generation.

The multiplication effect is becoming more visible as the first graduates are planting churches and training others. It's no longer just American missionaries investing their lives in the Chilean believers. Now, those first trained Chilean workers are reaching others.

Next Stage Strategic Plan

As we plan and prepare for the next 10 years, it's increasingly clear that **we need a permanent facility to maximize our efforts in training a growing number of Chileans who God has called to the ministry.**

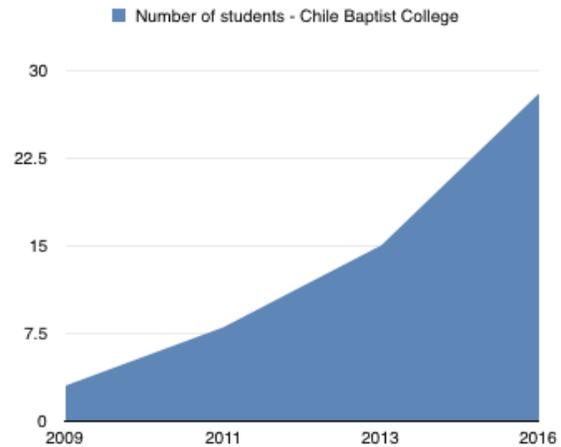

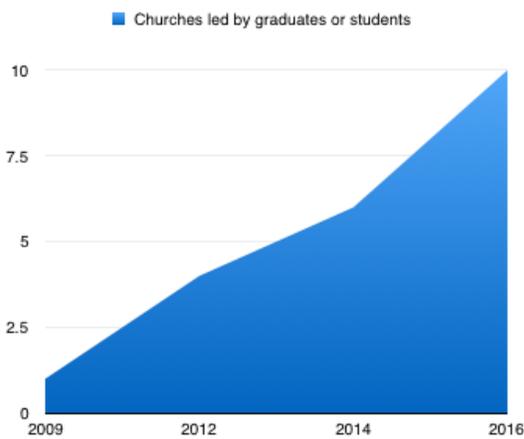

After careful prayer, planning, and consideration, we believe the next step is to acquire a piece of land with several large classrooms and limited apartment space for students from outside Santiago. **The projected cost for an adequate piece of property is \$250,000 dollars.**

Church Planting Conference Attendance - 200 April, 2016

Why do we need to make this transition now?

- Our current classrooms are full.
- Our commitment to longevity necessitates a plan that will continue to thrive when the missionaries are gone. A permanent space will facilitate this important goal.
- The student body has doubled in the last 3 years. If God continues to bless, we will need to make this transition very soon.

FAQ

1. Why not purchase a cheaper piece of land outside of the city?

- It's difficult for most to grasp the scope of a city with 7 million people. For the average young person using public transportation, it can take 2 hours to cross the city! A location outside Santiago only increases that long commute. With travel times exceeding 2 hours, the inevitable need for room and board (with *much* higher monthly expenses) also increases. We need an assessable location in the lower-middle class neighborhoods of city.

Vladimir Caro
 Pastor of Life Baptist Church which was planted in 2010

2. Where do we currently offer weekly training for the 30 Bible

college students?

- We use the Sunday school classrooms of our first church plant, Faith Baptist Church, in southwest Santiago.

3. *Why make a purchase when you can rent?*

- Similar properties would cost \$4,000-\$5,000 a month. The rent model is unsustainable for the nationals in the long run.

4. *How will these funds be raised?*

- This is a complete step of faith. We trust God to provide through the Chilean churches, strategic partners, and local churches in the USA. **Please pray about being a part of the project!**

5. *Where should funds be sent for this project?*

*Vision Baptist Missions
c/o Chile Land Fund
